What we Know About Refrigerators.

What we can say to you about Refrigerators has in it the net result of a long experience, many experiments, the selecting of the best and the discarding of the not so good. Here is an article where **QUALITY** counts for more, perhaps, than it does in anything you could buy in the furniture line. We have quality in mind—and that alone—when we say that we offer you the best to be had in the two makes we handle as leaders—the "Alaska" and the "Glacier."
